The Urban Forest Department
Government of Telangana
Hyderabad, Telangana

Subject: Request for Plants and Support for Plantation Drive Along RR7 Road, Tellapur

Respected Sir/Madam,

On behalf of **Service 4 Society (S4S)**, we request the support of the Urban Forest Department to organize a **community plantation drive along RR7 Road in Tellapur**, in association with volunteers from the gated communities located along the road.

We propose to initially plant approximately **500 saplings** to develop a sustainable green corridor along RR7. We request the Department to kindly provide suitable varieties of **native, drought-tolerant and road-suitable trees, shrubs and plants**, along with guidance on species selection, planting, spacing and maintenance.

We would particularly appreciate recommendations that:

- Are suitable for Telangana's climate and local soil conditions.
- Require relatively low water and maintenance.
- Provide shade and enhance the area's green cover and biodiversity.
- Can be safely planted along the road without affecting traffic visibility, utilities or pedestrian movement.

Service 4 Society will coordinate the plantation drive and mobilize volunteers from the surrounding gated communities. We will also work with the communities to support watering and care of the saplings after plantation, with the objective of ensuring their long-term survival.

We look forward to the Department's support in providing the required saplings and technical guidance for this community-led initiative.

We look forward to partnering with the Urban Forest Department to create a greener and more sustainable Tellapur.

Thank you for your consideration and support.

Yours faithfully,

Sridhar Goruganti
For **Service 4 Society (S4S)**
